PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in Data Science with hands-on experience in Python, JavaScript, SQL, React.js, and web application development. Experienced in developing responsive user interfaces, database-driven applications, and reusable components through internship and academic projects. Familiar with object-oriented programming, DBMS, MySQL, debugging, Git, and software development practices.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL

Web Development: HTML5, CSS3, React.js, Responsive Web Design

Core Concepts: Object-Oriented Programming, DBMS, Data Structures, Problem Solving

Database: MySQL

Tools & Development: Git, GitHub, VS Code, Debugging, Version Control

EDUCATION

Bachelor of Engineering – Computer Science Engineering (Data Science)	2022 – 2026
Impact College of Engineering and Applied Sciences, Bengaluru	CGPA: 9.01/10
PCMB	2020 – 2022
Government PU College, Yelahanka	74%
SSLC	2019 – 2020
Zeena English School	82%

INTERNSHIP

Python Full Stack Developer Intern – Dhee Coding Lab Feb 2026 – May 2026

- Developed web application interfaces using HTML, CSS, JavaScript, and React.js with responsive layouts and reusable components.
- Applied Python, SQL, and MySQL for application development, database operations, CRUD functionality, and problem-solving tasks.
- Developed a Staff Leave Management System with role-based functionality for managing staff records and leave requests.

PROJECTS

SheWorks – Online Services Platform | React.js

- Developed a responsive web platform using React.js, JavaScript, HTML, and CSS to connect clients with women offering home-based services.
- Built reusable components and separate client and provider interfaces for service browsing, profiles, bookings, orders, and dashboards.
- Implemented structured frontend workflows and integrated application screens with backend data for a complete service-management experience.

Foodie – Food Ordering Web Application | React.js

[Live Demo](#)

- Developed a responsive food ordering application using React.js, JavaScript, HTML, and CSS.
- Implemented food listings, food details, cart, and wishlist functionality using reusable React components.
- Designed responsive and interactive user interfaces with a focus on usability and consistent component structure.

CERTIFICATIONS

- Python Full Stack with Generative AI – Dhee Coding Lab
- Artificial Intelligence – Elewayte
- Data Analytics (Power BI & Tableau) – Great Learning

LEADERSHIP & ACTIVITIES

- Volunteered at a Mega Job Fair, supporting recruitment coordination and event execution.
- Participated in a community Walkathon promoting teamwork and social awareness.
